DURING their stay of two weeks here Judge W. C. Bell and Commonwealth's Attorney Charles A. Hardin made many friends outside of the court house as well as of those who practiced law before the former and with the latter gentleman. As a judge Mr. Bell impressed our people with being absolutely fair and impartial and his decisions were generally acceptable to our attorneys. We predict that he will grow even better as he grows older as a circuit judge and that the people of the 13th judicial district will have no cause to regret electing him to the high office. Mr. Hardin is a strong prosecuting attorney, a good interrogator and a fine speaker and the State's affairs will not be neglected as long as he looks after the evil doers. Both are genial gentlemen with whom it is a pleasure to be.

It is the belief at St. Petersburg that there will be no heavy land fighting with Japan before the last of April. Russia is said to regard the crippling of Port Arthur as a matter of relatively small importance. The port will be defended, but no large garrison will be maintained there. Viceroy Alexieff is still at Mukden and three or four thousand Russian soldiers are passing through that place daily to the positions the main armies will occupy. Russia, it is said, will take no chances, and is counting on crushing Japan by sheer force of men and guns when the opportune time arrives.

THE Middlesboro News misses the mark when it says that Bell county's assessment, as returned by the assessor, is \$272,000,000. Hasn't Brer. Albrecht added about \$270,000,000 just for the fun of the thing? Probably he has watered Bell county stock to that amount.

"THE man who stands in the way of democratic harmony is not a friend of the democratic party, but an enemy. The man who stands in the way of democratic victory should be relegated to the rear. If this be treason, make the most of it," declares Harry St. George Tucker, of Virginia, and all good democrats will say amen and amen.

MR. KLAIR'S bill to require attendance at school of children between the ages of seven and 14 years, which passed the House almost unanimously, should have as plain sailing in the Senate. There is little use of the State spending thousands and thousands of dollars unless the children are made to take advantage of it.

HOKE SMITH, who was Secretary of the Interior under President Cleveland, says Hearst's millions can not buy the South. He advocates Parker and Cleveland. As Mr Smith has been putting since Cleveland's last term, middle-of-the-road democrats will pay little or no attention to his utterances.

THE fact that the Legislature did not do in all cases just as the Courier Journal would have had it, may have been due to the fact that that paper did not have a good lobbyist at Frankfort. There is nothing like being prepared for emergencies when you want your end carried at all hazards.

THE Legislature will adjourn a week from to-day. Most of the important legislation was disposed of during the first month of the session. No new bills introduced now can be passed

POLITICAL.

The democratic State primary in Alabama will be held April 11.

The Kentucky Senate passed the bill to create a State Forestry Commission. A New York report tips Franklin Murphy as the latest selection for chairman of the National Republican Committee.

During the present session of the Kentucky Legislature 520 bills have been introduced in the House and 254 in the Senate.

The Smoot Inquiry will result in a wide advertisement of the Mormon church, as the articles of faith and other literature have been placed in the Congressional Record.

It is probable that R. W. Miller, of Madison, will be a candidate for State Central Committeeman in this district against Jack Chinn, of Mercer, the present committeeman.

The Senate passed a number of important measures, including the bill imposing a penalty upon witnesses for running away from a legislative investigating committee or grand jury.

Former President Grover Cleveland has written a letter to a member of Congress which was read in the House, denying the statement that a Negro had dined with him at the White House while he was Chief Executive of the nation.

Representative Stanley, of Kentucky, addressed the House in favor of the bill for the benefit of tobacco growers. Mr. Martin, of North Dakota, spoke on his resolution directing an inquiry into the difference of the cost of live and dressed beef.

Gov. Beckham has signed the bill extending the common school term to six months and the bill reappportioning the sheriff's revenue in order to meet the expenses entailed by the extension. He also signed the bills reappportioning the appellate districts.

Senator Quay desires that his colleague, Senator Penrose, be chosen chairman of the National Republican Committee, and the chances are favorable for his selection, which would mean that Senator Quay would be the real manager of the next campaign.

Senator McCreary, who has been in Frankfort several days, favors curtailing the powers of the chairman of the State Central and Executive Committees.

Virginia democrats at a dinner in Washington attended by about 100 men prominent in the politics of that State placed themselves on record in favor of a conservative national platform based on live issues.

The Kentucky House adopted a resolution authorizing the appointment of a committee to investigate charges against the management of the State prisons. The resolution directly charges that a warden had been selling milk to the prison of which he was warden.

A suit has been filed in the Carter circuit court enjoining Judge Brooks from acting in the capacity of Judge of the new county of Beckham, on the ground that the act creating the new county is unconstitutional. The suit is to test the constitutionality of the act, in order that the county may issue and sell bonds.

Joseph Smith, head of the Mormon church, told the Smoot Investigating Committee that he had not taught polygamy publicly in recent years, but he upheld the doctrine of polygamy and said a violation of the revelations of God, upon which the church was founded, would be equivalent to a rejection of God Himself.

HERE AND THERE.

A school of domestic science is to be made a part of the University of Chicago.

Two families barely escaped cremation in a tenement house fire in Covington.

Indiana coal miners and operators failed to reach an agreement on the wage scale.

James Gillespie is on trial at Riley, Ind., on the charge of murdering his twin sister.

Cincinnati bakers will not advance the price of bread. They claim the war in the Far East is a farfetched excuse.

Six men were drowned and four others injured as a result of the collapse of a bridge spanning Yellow Creek, near Irondale, O.

The Yorkhaven Power Company's millon dollar plant at Yorkhaven, Pa., has been swept away by ice which crashed against it.

The guides who will operate the push chairs at the St. Louis Exposition will be selected from the students of universities in the United States.

One priest and two women were killed and two other priests injured in a fire which destroyed St. Patrick's Roman Catholic church at Long Island City.

There are 13 prisoners in jail in Louisville charged with the murder of a fellow man in Jefferson county, and four of them are under sentence of death.

Oil producers in Kentucky are puzzled at a further reduction recently made by the Standard Company in its price for the output of the Kentucky fields.

The Japanese fleet bombarded Vladivostok at long range for 55 minutes Sunday, causing but small damage. There was no reply from the land batteries, the enemy being beyond effective range.

A Henderson dispatch says: A strange coincidence is reported here. William Mareb, aged 67, died at his home in this city. Shortly after his death his family received a message that his twin brother died at the same hour on the same day in Marion, Ind.

Because President Roosevelt's valuable horses are being ruined by the unhealthy and damp stables of the White House, Secretary Taft, of the War Department, asked for an appropriation of \$90,000 instead of \$50,000, a former estimate for new buildings.

No. 75, 150,000 acres of cotton land in Mississippi. There is no section of country which offers so many opportunities for profitable investment as the Mississippi Delta which is now fifty described as "Prosperity Valley." The timber is becoming more valuable all the time for the reason that lumber people from the North (where the supply of timber is fast diminishing, are constantly increasing their purchases of timber lands in the South. When the timber is removed the land is unequalled for agricultural purposes. It will produce a bale of cotton raised in the temperate zone. The soil needs no fertilizers and gives a yield which cannot be excelled; taxes are low, the title is perfect and the man who buys Delta farm and timber lands at present prices is making an investment that he will never regret. This land is divided into tracts ranging from 40 acres to the tract to 2,000 acres to the tract and prices from \$8 per acre to \$10 per acre, according to location, etc. We are authorized by the company who owns these lands to state that as other parties are considering the purchase of these lands that we offer these tracts subject to prior sale, withdrawal from market or change in price without notice. However, when notified, they will hold any tract out of market long enough for the purchaser to make an investigation. About 12,000 acres of this land has been sold by the Company since we received this option. For further particulars call at our office.
